Shell fabric: 36% Modacrylic / 34% Polyester / 24% Cotton / 5% Aramid / 1% Antistatic fibre, 375 g/m², FR

Wash:

With ENGEL's fluorescent softshell jacket, you are protected when working in dangerous environments and high-risk work areas. It is also available in several fluorescent hi-vis colours. With its inherent flame-retardant fabric, even after many washes and its antistatic properties, this jacket is designed to protect against hazards such as flames, embers, chemicals, arc flash and molten metal. On the front, the jacket also has a strap where you can attach a gas alarm. The softshell jacket has a high collar and a comfortable fit, which can be adjusted at the cuffs and with a drawstring at the bottom. All external pockets have zippers. All in all, a functional softshell that combines ENGEL SAFETY, visibility and comfort.

- High collar
- Straps to attach gas alarm at the front
- Concealed zipper with press studs at front
- External pockets with zipper
- D-ring for ID card
- Adjustable cuffs with Velcro closure
- Cord at the bottom to keep the wind out
