Shell fabric: 100% Polyester (recycled), 70 g/m²

Contrast fabric: 96% Polyester (recycled) / 4% Elastane

Wash:

This stylish jacket is a perfect combination of functionality and flexibility. The lightly quilted design combined with stretchable softshell on the sleeves and yoke provides increased dexterity and an optimal fit. For increased comfort, the jacket has a soft and wind-protective inner collar. The jacket features a practical front zipper and several spacious pockets, such as a chest pocket and two side pockets both with zippers. Elastic finishing on the sleeves and bottom provides a snug and comfortable fit, while the velcro adjustment at the bottom of the sleeves makes it easy to customize the jacket. Reflective print on both the collar and sleeves increases visibility. The jacket is also designed to allow for company branding.

- Light quilted jacket combined with softshell for good flexibility
- Sleeves and yoke in stretchable softshell fabric for increased flexibility
- Soft and wind-protective inner collar
- Front zipper
- Chest pocket with zipper
- Two side pockets with zipper for safe storage
- Elasticated storm cuffs to protect against wind and cold
- Reflective print on collar and sleeves for increased visibility
- Elastic edging tape at the bottom for good fit
- Room for company profiling
