Wash:	

This winter jacket is designed to deliver reliable protection and comfort in cold, demanding conditions. The waterproof and breathable fabric with taped seams keeps you dry while allowing excess heat to escape. Durable ripstop with mechanical stretch provides freedom of movement and lasting wear, while the tailored fit ensures comfort and ease throughout the day. A soft inner collar shields against wind, and the ENGEL EXTENDed back piece gives extra coverage for the lower back. The detachable hood is adjustable and the concealed front zipper helps avoids scratches. Functional storage includes zipped chest and side pockets, an inner chest pocket and a large inner pocket, with a practical strap and D-ring for an ID card. Sleeves adjust easily with Velcro and elastic, while a drawstring at the hem refines the fit. Reflective prints on sleeves and back enhance visibility and a lining zipper

- Waterproof and breathable with taped seams
- Ripstop with mechanical stretch for increased movement
- Soft, wind-protective inner collar for good comfort
- Detachable and adjustable hood for flexibility
- Concealed front zipper with narrow placket closure to avoid scratches
- Chest pocket and side pockets closed with zipper
- Inner chest pocket with zipper
- Large inner pocket
- Elastic and Velcro at the bottom of the sleeves for better fit and comfort
- ENGEL EXTENDed back piece for protection of the lower back
- Strap with D-ring for ID card
- Reflective print on sleeves and back for increased visibility
- Adjustable hem with drawstring, for easy customisation
- Zipper in the lining, providing option for print transfer
- Use together with trousers or overalls with same or higher insulation classification, to attain protection against cold
