Wash:

ENGEL ENGEL SAFETY+ trousers are ideal for those who need the best protection you can get. With these trousers, you are protected against flames, chemicals, metal splashes, arc flash and much more, thanks to the flame-retardant and antistatic material. These work trousers are made in several colours with a combination of a dark colour and hi-vis, where the hi-vis blocks are dominant. Together with the certified reflectors, the hi-vis blocks ensure you can be seen in work environments with reduced visibility conditions. For work in conditions that require class 3 clothing, simply combine these ENGEL SAFETY trousers with a ENGEL SAFETY+ winter jacket (item no. 1321-188).
