ENGEL's ENGEL GALAXY work trousers with stretch are for the industrial worker, the tradesman, or for those who want the most comfortable trousers to work in while doing an active job that involves kneeling or climbing ladders. Due the flexible material with stretch, these trousers offer full freedom of movement in all working positions. To further optimise the fit, the work trousers have an elasticated waist at the back and ergonomic knee sections. The ENGEL GALAXY work trousers are equipped with many functional details to make your working day effective. With practical pockets, you can always have the tools you need close at hand. The reinforced ruler pocket, for example, allows you to stow sharper tools without the risk of damaging the pocket. These work trousers are also reinforced with triple-stitched seams at the crotch and along the inseam, to strengthen key areas that are often ex

- Stretch for freedom of movement and comfort
