Functional trousers with many practical details. Optimum fit with ergonomically shaped knees and inner seam panel which ensures a comfortable crotch seam. The panel in the inner seam is made of a highly stretchable and ventilating material which ensures a very high level of comfort. The elastic at the back of the waist ensures a good fit, and means that the trousers stay where they should, for example when getting in and out of a vehicle. D-ring at front for affixing ID card etc. Two spacious slanted front pockets. Two back pockets. Thigh pocket on left side with a flap as well as a separate mobile phone pocket. Inside pocket on right side for e.g. a ruler. Reinforced knees. The trousers are not certified according to EN ISO 20471, but have reflectors around the bottom of the trouser legs, and details made from fluorescent material for greater visibility.
