

Ref: 40922

USE

- Accessory designed to guide the angle grinders **to cut straight 90°** and to increase the stability and comfort during cutting.
- Reduces the amount of airborne dust during cutting, improves the performance of the blade and provides a better-quality finish by reducing chipping.

CHARACTERISTICS

- Positioning: SUPERPRO
- ZERO-DUST. The connection to vacuum cleaner completely removes dust from the cutting zone. Silicone seal don't allow dust leaks.
- LESS EFFORT, EASY CUT. Wheels holds the weight of the angle grinder when cutting. It's much easier to guide the blade in a straight line.
- Adds precision when grooving and makes movement comfortable.
- Has a vacuum cleaner hose for Ø35 mm max.
- UNIVERSAL. Compatibility with grinders of 115 & 125 mm with open protector.
- Very easy to assemble and disassemble.
- Robust and durable design.
- Rubber wheels that reduce vibrations during movement with diameter of Ø30 mm, in grey colour that don't leave marks in the material.
- Body made mainly of steel.

TECHNICAL SPECIFICATIONS

- Product dimensions: 164.9 x 80 x 161.1 mm
- Net weight: 0.370 kg
- Material: 08KP cold rolled steel
- Supported disc diameter: 115 to 125 mm
- Maximum cutting depth: 20 mm
- Vacuum cleaner connector: Ø35 mm
- Rubber wheels: Ø30 mm
