This boiler suit is designed with a focus on functionality, durability, and comfort to meet the needs of demanding work environments. It is made from Ripstop material with 2-way stretch, ensuring both flexibility and durability. The concealed front zipper protects against scratches, and the elastic in the back waist ensures an optimal fit, even during movement. The practical pockets include, for example, a spacious chest pocket with a zipper, as well as a thigh pocket with a zipper and a dedicated mobile phone pocket. To ensure an optimal fit, the boiler suit has elastic and velcro adjustments at the sleeve openings. Additionally, the boiler suit has knee pockets with CORDURA® reinforcement and velcro closure, with two adjustment options for height regulation of the knee pads, allowing for individual customization. A reinforced ruler pocket and a hammer strap make it easy to store tools.
