EXTEND Thermal Trousers

Insulation

20

Size: XS-S-M-L-XL-2XL-3XL-4XL

Shell fabric: 100% Polyester, 80 g/m²

Wash:

These thermal trousers provide dependable warmth and comfort for colder working conditions. The elasticated waistband ensures a secure and flexible fit, while the fly opening adds everyday practicality. A durable, welded construction prevents broken threads, giving the trousers a longer lifespan and a smooth finish. Ribbing at the ankles keeps the trousers in place and helps retain warmth. The trousers are insulated to protect against the cold while allowing the body to breathe. The insulated lining helps them retain their shape, making them ideal for outdoor work or tasks in cold storage.

- Elasticized waistband
- Fly opening
- Ribbing at the ankles
