

## MAGLIFT - Spécifications techniques

### Description

MAGLIFT a été conçu pour toutes les opérations avec chariots élévateurs pour la manutention dans les secteurs industriels et logistique. Ce pneu plein se distingue de par sa capacité de charge élevée et son confort exceptionnel. MAGLIFT offre une excellente résistance aux crevaisons, ce qui se traduit par un cycle de vie plus long du pneu. Sa structure renforcée réduit les risques de dérapage, tandis que la forme particulière de la tringle facilite le montage sur la jante.
