- Shell fabric:** 52% Merino wool / 48% Polyester (recycled), 200 g/m²
- Wash:**

These briefs from ENGEL are ideal for wearing during hard physical work, where they will serve as an extra warming and insulating layer under your work trousers. The wool briefs are specially designed to take up minimal space under your regular work clothes and to ensure optimal comfort during demanding physical labour. Firstly, thanks to the wool content, the briefs are breathable and easily absorb sweat, which is channelled away from your body, leaving the fabric to dry quickly. Another benefit of wool is that it is temperature-regulating, making these briefs ideal to wear on both cold and warm days. The briefs are designed to feel so light that you barely notice you're wearing them. They are extremely stretchable, so they adapt to your body and follow your movements.

- Ideal to wear during hard physical work
- Light and soft merino wool
- Elastic fabric that adapts to the shape of your body
- Temperature-regulating, so you can wear it on both cold and warm days
- Moisture-wicking and breathable to keep the body dry
- Quick-drying
