Material: 42% Wool / 37% Polyamide / 18% Acrylic / 3% Elastane
Wash:

These comfortable worker socks with wool from ENGEL have an ergonomic design with an optimal fit. Thanks to the wool's natural properties, these socks are ideal for keeping feet comfortable in either warm or cool conditions; the wool is both moisture-wicking and temperature-regulating. The socks feature luxurious terry fabric reinforcement on the toes and sole, making them soft and comfortable to wear all day long. The specially designed sock leg adapts to the calf and prevents the socks from slipping down. With increased support around the arch, instep and achilles tendon, as well as a smart flat and smooth toe seam, you get optimal comfort whether you're at work or off work. The classic ankle-length cut provides extra support for the calves, and the wool's high insulation capacity makes these socks ideal for use in all working conditions.
