

Plaster straight Edges

Length	Reference	Clé	Cdt
0,6 m	45 05 10	1	1
1,5 m	45 05 11	8	1
2 m	45 05 12	5	1

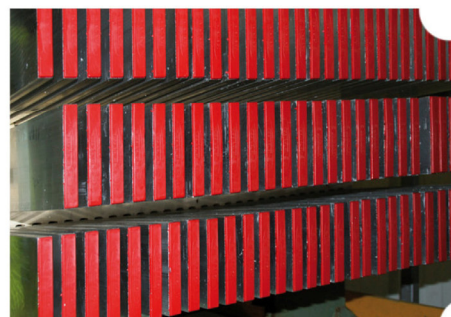

For guiding the scraper when marking decorative hollow joints in single-layer plaster.

Aluminium profile 100x18mm with plastic end caps.

Individually packaged in shrink wrap.

2 unbreakable plexiglas vials
(1 horizontal, 1 vertical precision tolerance 1mm/m)
located under the reference side of the tool,
thus avoiding any snagging.
The scraper glides smoothly along the entire
length of the edge.

Wide range of scrapers available in the catalogue.
