1 - PRECAUTIONS D'USAGE

(La garantie du produit est conditionnée par le respect de ces règles)

MONTAGE et MISE EN SERVICE

Pour les produits livrés avec des filtres, ceux-ci doivent impérativement être montés conformément à la notice.

Avant la mise en service de nos robinets, quels qu'ils soient, il est indispensable de purger soigneusement les canalisations qui peuvent endommager les mécanismes.

Pression de service recommandée : 1 à 5 bar.

Fermer et ouvrir au moins une fois par an le robinet d'arrêt.

Les robinets doivent être installés par des professionnels suivant le DTU. 60.11.

Respecter le diamètre des tuyauteries permet d'éviter les coups de bélier ou pertes de pression /débit.

NETTOYAGE

Le revêtement chromé des robinetteries PRESTO® doit être nettoyé exclusivement à l'eau savonneuse. Proscrire les produits d'entretien abrasifs, acides, alcalins ou ammoniacés

INSTALLATION and START UP

For products delivered with filters, these must be installed in accordance with the instructions.

Before commissioning any of our valves, it is essential to carefully drain the pipes that can damage the mechanisms or water passages.

Recommended operating pressure: 1 to 5 bar. Open and close the check valve at least once a year.

The taps must be installed by qualified persons taking the specification into account.

Respect the sizes of the pipes to avoid water hammer or pressure/flow rate drop.

CLEANING

The chrome-plated coating of PRESTO® valves must be cleaned only with soapy water.

Abrasive, acid, alkaline or ammonia-based household products are prohibited.

MONTAGE und INBETRIEBNAHME

Bei mit Filtern gelieferten Produkten müssen diese unbedingt unter Beachtung der Anleitung montiert werden.

Vor Inbetriebnahme unserer Armaturen, egal welchen Typs, muss vorher immer eine sorgfältige Entlüftung der Rohre erfolgen.

Empfohlener Betriebsdruck: 0 bis 5 bar. Das Absperrventil mindestens einmal pro Jahr schließen und öffnen.

Die Armaturen müssen von geschulten Fachleuten unter Beachtung der gültigen Vorschriften installiert werden.

Durchmesser der Rohrleitungen respektieren um Rückschlag oder Druck- und Volumenstromverlust zu vermeiden.

REINIGUNG

Die Chrombeschichtung der PRESTO®-Armaturen darf nur mit Seifenwasser gereinigt werden.

Abrasive, saure oder ammoniakhaltige Reinigungsmittel dürfen nicht verwendet werden.

MONTAJE Y PUESTA EN SERVICIO

Para los productos suministrados con filtros o llaves de paso, éstos deben montarse imperativamente conforme las instrucciones.

Antes de la puesta en servicio de nuestros grifos cualquiera que sean, es indispensable purgar totalmente las cañerías.

Presión de servicio recomendada: 1 a 5 bar. Cerrar y abrir la llave de paso al menos una vez al año.

Los grifos deben estar instalados por personal calificado según las normas del CTE de edificación.

Respetar las dimensiones de canalización para evitar el golpe de ariete o la pérdida de presión/caudal.

LIMPIEZA

El recubrimiento cromado de nuestros grifos PRESTO® debe ser limpiado exclusivamente con agua jabonosa.

Son totalmente perjudiciales los productos de conservación abrasivos, ácidos, básicos o amoniacos.

MONTAGGIO e UTILIZZO

Per quanto riguarda i prodotti consegnati completi di filtri, questi devono essere tassativamente montati in conformità a quanto riportato sulle istruzioni.

Prima della messa in funzione dei rubinetti, indipendentemente dal tipo, è indispensabile spurgare accuratamente le tubazioni per evitare di danneggiare i meccanismi o i passaggi dell'acqua.

Pressione di servizio raccomandata : da 1 a 5 bar. Chiudere e aprire il rubinetto d'arresto almeno una volta all'anno.

I rubinetti devono essere installati da personale qualificato, in conformità alle normative in vigore.

Rispettare le dimensioni della tubazione per evitare il colpo d'ariete o la perdita di pressione/ portata.

PULIZIA

Pulire il rivestimento cromato delle rubinetterie PRESTO® esclusivamente con acqua saponata.

Non utilizzare prodotti detergenti abrasivi, acidi, alcalini o contenenti ammoniaca.

MONTAGE en INBEDRIJFSTELLING

Voor producten die geleverd werden met filters geldt dat deze in ieder geval moeten worden gemonteerd, in overeenstemming met de handleiding.

Voor de inbedrijfstelling van om het even welke van onze kranen, is het noodzakelijk zorgvuldig de leidingen te ontluichten, die de mechanismen kunnen beschadigen of de doorstroming van water kunnen schaden.

Aanbevolen gebruiksdruk: 1 tot 5 bar. De stopkraan minstens één keer per jaar sluiten en openen.

De kranen moeten volgens de richtlijnen van het Bouwbesluit, door opgeleid en gekwalificeerd personeel geïnstalleerd worden.

Respecteer de afmetingen van de leidingen om water terugslag of druk- of debietverlies te vermijden.

REINIGING

De chroomlaag van de PRESTO® kranen mag uitsluitend worden gereinigd met zeepwater.

Verboden zijn schurende, zure, alkalische of ammoniak bevattende onderhoudsproducten. .
